

Quick Guide – Inventory

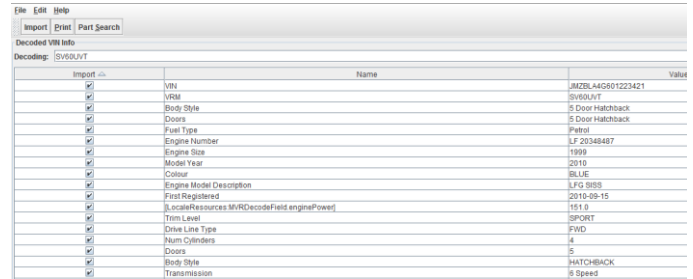

Add Vehicle using Vin Code (HPI)

Introduction

If you have purchased the services from HPI then you will be able to add a vehicle simply by entering the vehicle registration number. This will add the following information into the new vehicle screen:

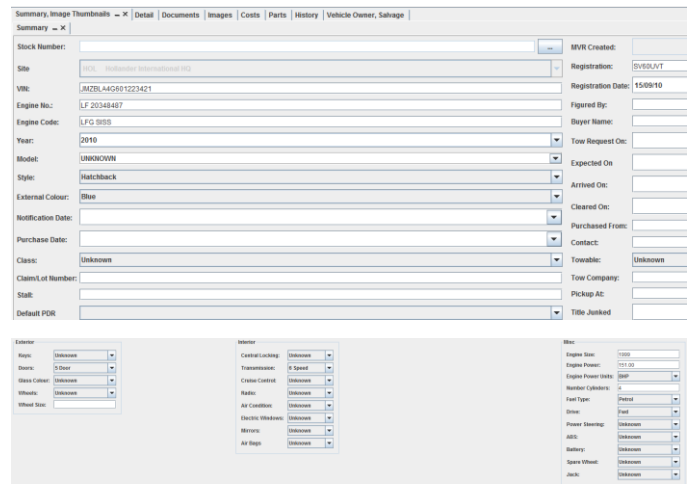

- VIN
- VRM
- Body Style
- Doors
- Model
- Trim Level
- Fuel Type
- Engine Number
- Engine Size
- Model Year
- Colour
- Engine Model Description
- First Registered
- Engine Power
- Drive Line Type
- Cylinders
- Transmission

- In the 'Decoding' field enter registration number of vehicle then click onto 'Decode'. 
- To import vehicle details into Pinnacle click onto 'Import' then close the 'VIN Information' screen.

Import to	Name	Value
<input checked="" type="checkbox"/>	VIN	JMZBL440601223421
<input checked="" type="checkbox"/>	VRM	SV50LJVT
<input checked="" type="checkbox"/>	Body Style	3 Door Hatchback
<input checked="" type="checkbox"/>	Doors	3 Door Hatchback
<input checked="" type="checkbox"/>	Fuel Type	Petrol
<input checked="" type="checkbox"/>	Engine Number	LF 20348487
<input checked="" type="checkbox"/>	Engine Size	1199
<input checked="" type="checkbox"/>	Model Year	2010
<input checked="" type="checkbox"/>	Colour	BLUE
<input checked="" type="checkbox"/>	Engine Model Description	3 F.G. 9558
<input checked="" type="checkbox"/>	First Registered	2010-09-15
<input checked="" type="checkbox"/>	Resources MVR/Decode/First engine/Power	151.0
<input checked="" type="checkbox"/>	Trim Level	SPORT
<input checked="" type="checkbox"/>	Drive Line Type	FWD
<input checked="" type="checkbox"/>	Num Cylinders	4
<input checked="" type="checkbox"/>	Doors	3
<input checked="" type="checkbox"/>	Body Style	HATCHBACK
<input checked="" type="checkbox"/>	Transmission	5 Speed

- In the 'Vehicle Information screen' complete other fields as appropriate.
